

SILVER ONE ANNOUNCES PRIVATE PLACEMENT FINANCING

Vancouver, British Columbia--(July 3, 2019) - Silver One Resources Inc. (TSXV: SVE) (OTCQB: SLVRF) (FSE: BRK1) ("Silver One") is pleased to announce that it will conduct a non-brokered private placement of up to 20,000,000 units ("Units") at a price of \$0.125 per Unit for gross proceeds of up to \$2,500,000 (the "Offering").

Each Unit will be comprised of one common share and one-half of one common share purchase warrant ("Warrant"), with each whole Warrant entitling the holder to purchase one additional common share at \$0.20 per share for a period of three (3) years from the date of issue.

All securities issued in connection with the Offering will be subject to a four-month statutory hold period. A finder's fee may be payable on the private placement.

Proceeds of the financing will be used for exploration activities and ongoing metallurgical studies on the historical mine at the Candelaria Silver Project, additional exploration activities to further define the high-grade silver-gold-copper vein systems at the Cherokee Project, and for working capital purposes.

Completion of the private placement remains subject to the approval of the TSX Venture Exchange.

About Silver One

Silver One is focused on the exploration and development of quality silver projects. The Company holds an option to acquire a 100%-interest in its flagship project, the past-producing Candelaria Mine located in Nevada. The Company is currently conducting metallurgical tests to determine the best methods for and potential recoveries of silver from the historic leach pads. Additional opportunities lie in previously identified high-grade silver intercepts down-dip and potentially increasing the substantive silver mineralization along-strike from the two past-producing open pits.

The Company has staked 636 lode claims and entered into a Lease/Purchase Agreement to acquire five patented claims on its Cherokee project located in Lincoln County, Nevada, host to multiple silver-copper-gold vein systems, traced to date for over 11 km along-strike.

In addition, the Company also holds a 100% interest in three significant silver assets located in Mexico – Peñasco Quemado, Sonora; La Frazada, Nayarit; and Pluton, Durango, acquired from First Mining Gold, one of the Company's largest shareholders.
